

PERFORMANCE IMPROVEMENTS FOR SECONDARY ELECTRON FLOOD ASSEMBLY

DESIGN FEATURES

Shower Filament

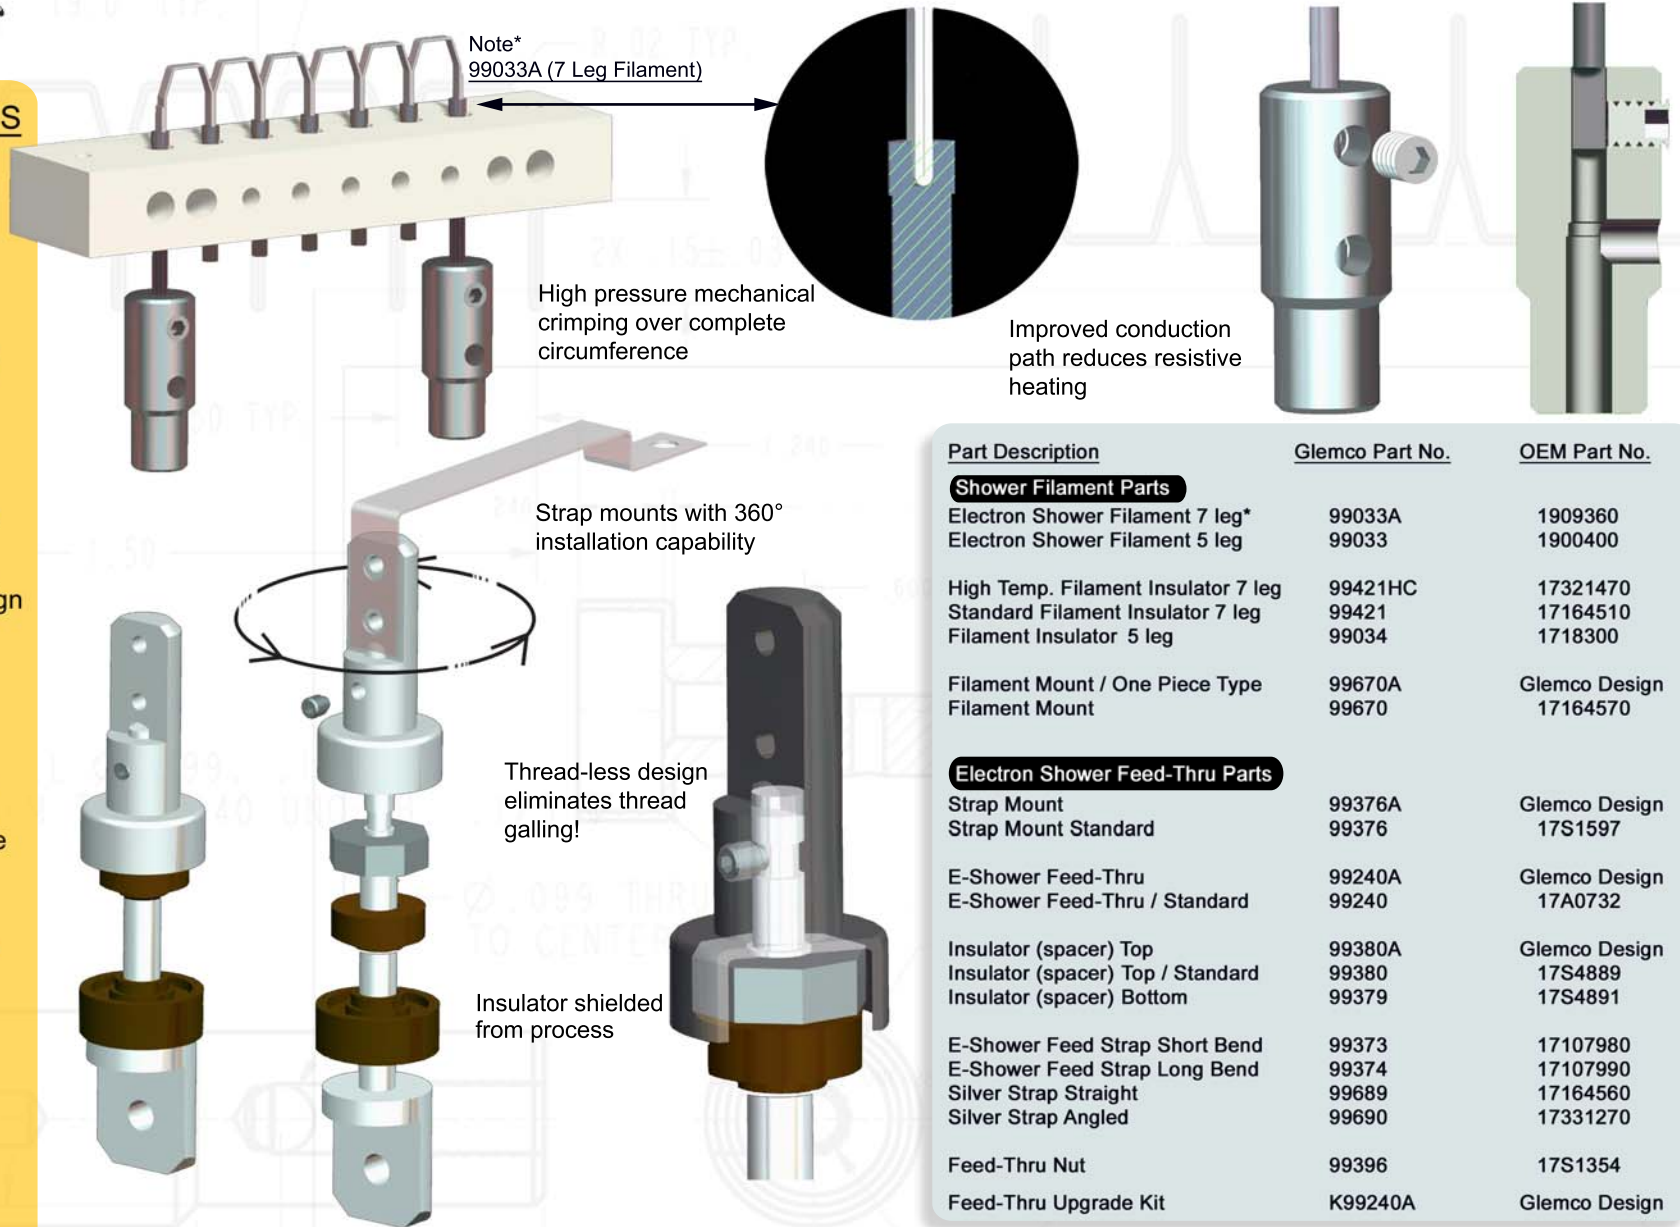

- Precisely bent one piece tungsten wire-form
- Designed to easily slide into an insulator block without manipulation

Filament Mount

- Increased conductive path
- One piece nickel design

E-Shower Feed-Thru

- Time saving set screw design that allows easy removal.
- Threadless conductive path
- Integrated insulator shield to protect from process buildup
- Increased thickness to our Insulator
- Total reduction in the number of components

Part Description

Shower Filament Parts

	Glemco Part No.	OEM Part No.
Electron Shower Filament 7 leg*	99033A	1909360
Electron Shower Filament 5 leg	99033	1900400
High Temp. Filament Insulator 7 leg	99421HC	17321470
Standard Filament Insulator 7 leg	99421	17164510
Filament Insulator 5 leg	99034	1718300
Filament Mount / One Piece Type	99670A	Glemco Design
Filament Mount	99670	17164570

Electron Shower Feed-Thru Parts

Strap Mount	99376A	Glemco Design
Strap Mount Standard	99376	17S1597
E-Shower Feed-Thru	99240A	Glemco Design
E-Shower Feed-Thru / Standard	99240	17A0732
Insulator (spacer) Top	99380A	Glemco Design
Insulator (spacer) Top / Standard	99380	17S4889
Insulator (spacer) Bottom	99379	17S4891
E-Shower Feed Strap Short Bend	99373	17107980
E-Shower Feed Strap Long Bend	99374	17107990
Silver Strap Straight	99689	17164560
Silver Strap Angled	99690	17331270
Feed-Thru Nut	99396	17S1354
Feed-Thru Upgrade Kit	K99240A	Glemco Design
