

## Our Standards

We excel in customer service, and tailoring solutions to meet our customer's needs. Offering specialized maintenance schedule kitting, consignment inventories, volume pricing, and blanket order management for specified delivery and inventory control.

We work with our customers to help them maintain a competitive edge through realization of improvements, special projects, and development of innovative solutions to everyday production problems.

We strive for the highest quality product through continual improvement of manufacturing processes, service, and delivery.

We embrace ISO as a management tool and believe that only by embracing the concepts of Total Quality Management will we best serve our customers and are proud to be an ISO 9001:2015 Certified company.

## Our Capabilities

Our facility produces assemblies, consumables, gauges, o-rings, fittings, fasteners (standard and specialty), standoffs, bearings, electrical components, thermocouples, springs, ceramics, valves, feedthroughs, and we service existing equipment through refurbishments and repairs.

*has been providing high quality products, support and service to our customers for over 40 years. We're a dedicated partner, not just a supplier, who will work with your design, engineering, and production teams to maximize your product potential and drive your business forward.*

## Our Services

- Precision Machining
- Part Development
- Short Run Production
- Sand & Bead Blasting
- Arc, Tig & Mfg Welding
- Refurbishment
- Engineering
- Prototypes
- Fabrication
- Laser Cutting
- Anodizing
- Assembly

## Our Materials

- |                 |             |              |                |            |
|-----------------|-------------|--------------|----------------|------------|
| ■ Aluminum      | ■ Delrin    | ■ Molybdenum | ■ Polyurethane | ■ Tantalum |
| ■ Boron Nitride | ■ Duratron  | ■ Nickel     | ■ Polyethylene | ■ Teflon   |
| ■ Brass         | ■ Graphite  | ■ Niobium    | ■ Semitron     | ■ Torlon   |
| ■ Bronze        | ■ Hastalloy | ■ PEEK       | ■ Silver       | ■ Tungsten |
| ■ Copper        | ■ Inconel   | ■ Phenolic   | ■ Stainless    | ■ Vespel   |

## Our Equipment

### Milling Machinery

Positional and dynamic 5 axis machining centers, up to x= 60" y= 26" z= 24"

High speed drilling and tapping centers, up to x=24" y=15.75" z=24"

Vertical machining centers, up to x=24" y=12" z=12"

### Turning Tools

2 axis, max diameter 9", max thru spindle diameter 2", Max length 22"

4 axis with live tooling, max diameter 14", max thru spindle diameter 3", Max length 24"

5 axis with live tooling, max diameter 9", max thru spindle diameter 2.6", Max length 4.7"

### CNC Sheet Metal Forming Machinery

Precision 36 ton, 6 axis control press brake, 48" length, 4" stroke, 10" throat depth

### Wire EDMs

Max part size x=41" y= 32.25" z= 11.75"

Max cutting capacity x=23.5" y= 15.5" z= 12"

### Versatility & Support Tools

Mills and lathes

Surface grinders

Hydraulic presses

Sheet metal shears

Horizontal and vertical band saws

Indexers/Rotary tables

Kilns
