V3 Bellows Liner Flange and Shield Liner for **Axcelis® GSD 200E² 160V**

Glemco premieres an upgraded liner flange and shield liner for the V3 Bellows, that is designed to increase productivity and raise performance with these improvements...

➤ **Guided Installation**

The 99903A liner flange is clearly marked to guide the installer to the correct orientation.

➤ **Reduced Particles**

The 99904 shield liner keeps the bellows convolutions cleaner and decreases contaminants.

➤ **Cost Effective**

The disposable shield liner can be removed and replaced extending the meantime between V3 bellows PM cleanings.

V3 Bellows Liner Flange and Shield Liner

The OEM liner flange has known PEF clearance issues and the shield liner in its design can be installed incorrectly, which could cause the PEF to short out immediately.

The Glemco modified liner flange with disposable liner addresses those clearance issues and features a shield liner that provides a failsafe installation.

Item	P/N	Description	OEM
1	8B339	1/8 Mounted Snap Lock, Nylon®	No OEM Reference
2	99903A	V3 Bellows Liner Flange, Custom, Aluminum	170103830
